## SECURE YOUR DREAMS THROUGH PRAYERS

The Bible defines a dream in Job 33:15 "... in a dream in a vision of the night, when deep sleep falleth upon men, in slumbering's upon the bed ..." (NKJV) Several things are said in this one verse. In the first place, a dream is a vision of the night. The Bible also reveals that dreams come during sleep. Dreams are not what we should joke with. At the same time, we should depend on the wisdom of God for dream interpretations because not all dreams come from God.

God uses dreams and visions to speak to us. God crafts each dream individually and uses them to speak to us in different ways and for different purposes. It is important to know that satan hates you when he discovers that your dream life is healthy and active. Genesis. 37:5 says, "And Joseph dreamed a dream and told it to his brethren: and they hated him yet more." There is something in them that made them to hate Joseph because he dreamt and that thing is satanic. This accounts for why satan attacks people's dreams either by making them to forget or to despise their dream even when they remember them. Satan knows that through dreams people can peep into their future and know their next navigational route toward their success base. So, he will make sure he frustrates such individual through any means.

Someone that has not surrendered his life to Jesus is prone to dream manipulations. That life is under the control of the devil, so devil can freely attack such a person even through his dreams. That is why a pregnant woman can see herself in the dream being thrown a red material on the stomach and in the physical bleeding sets in and the next thing is miscarriage. That is why it is dangerous to live your life outside the covering of the Almighty God. Whatsoever that is not given to God, He is not committed to the security of such.
